January to September - Multiples	82,279	92,381
January to September - Total	128,475	134,692

Source: CMHC

¹The trend is a six-month moving average of the monthly seasonally adjusted annual rates (SAAR). By removing seasonal ups and downs, seasonally adjusted monthly figures at annual rates indicates the annual level of starts that would be obtained if the monthly pace was maintained for 12 months.

²CMHC estimates the level of starts in centres with a population of less than 10,000 for each of the three months of the quarter, at the beginning of each quarter. During the last month of the quarter, CMHC conducts the survey in these centres and revises the estimate.

³Urban centres with a population of 10,000 and over.
