

A Figure 3. Section N7373675 showing new results from drill holes PAL0015 and PAL0017

B

Legend

- | | | |
|---|-----------------------------|--------------------------------|
| Albitized metasediment | Overburden | Maxwell EM model plates |
| Amphibolite | Grey albitized metasediment | Low apparent resistivity model |
| Magnesium silicate-pyrrhotite mineralized host rock | Silicified rock | |

Assay results g/t Au

- | | | | | |
|-------|-----|-----|-----|-------|
| ≤ 0.5 | ≤ 1 | ≤ 3 | < 5 | < 189 |
|-------|-----|-----|-----|-------|
