

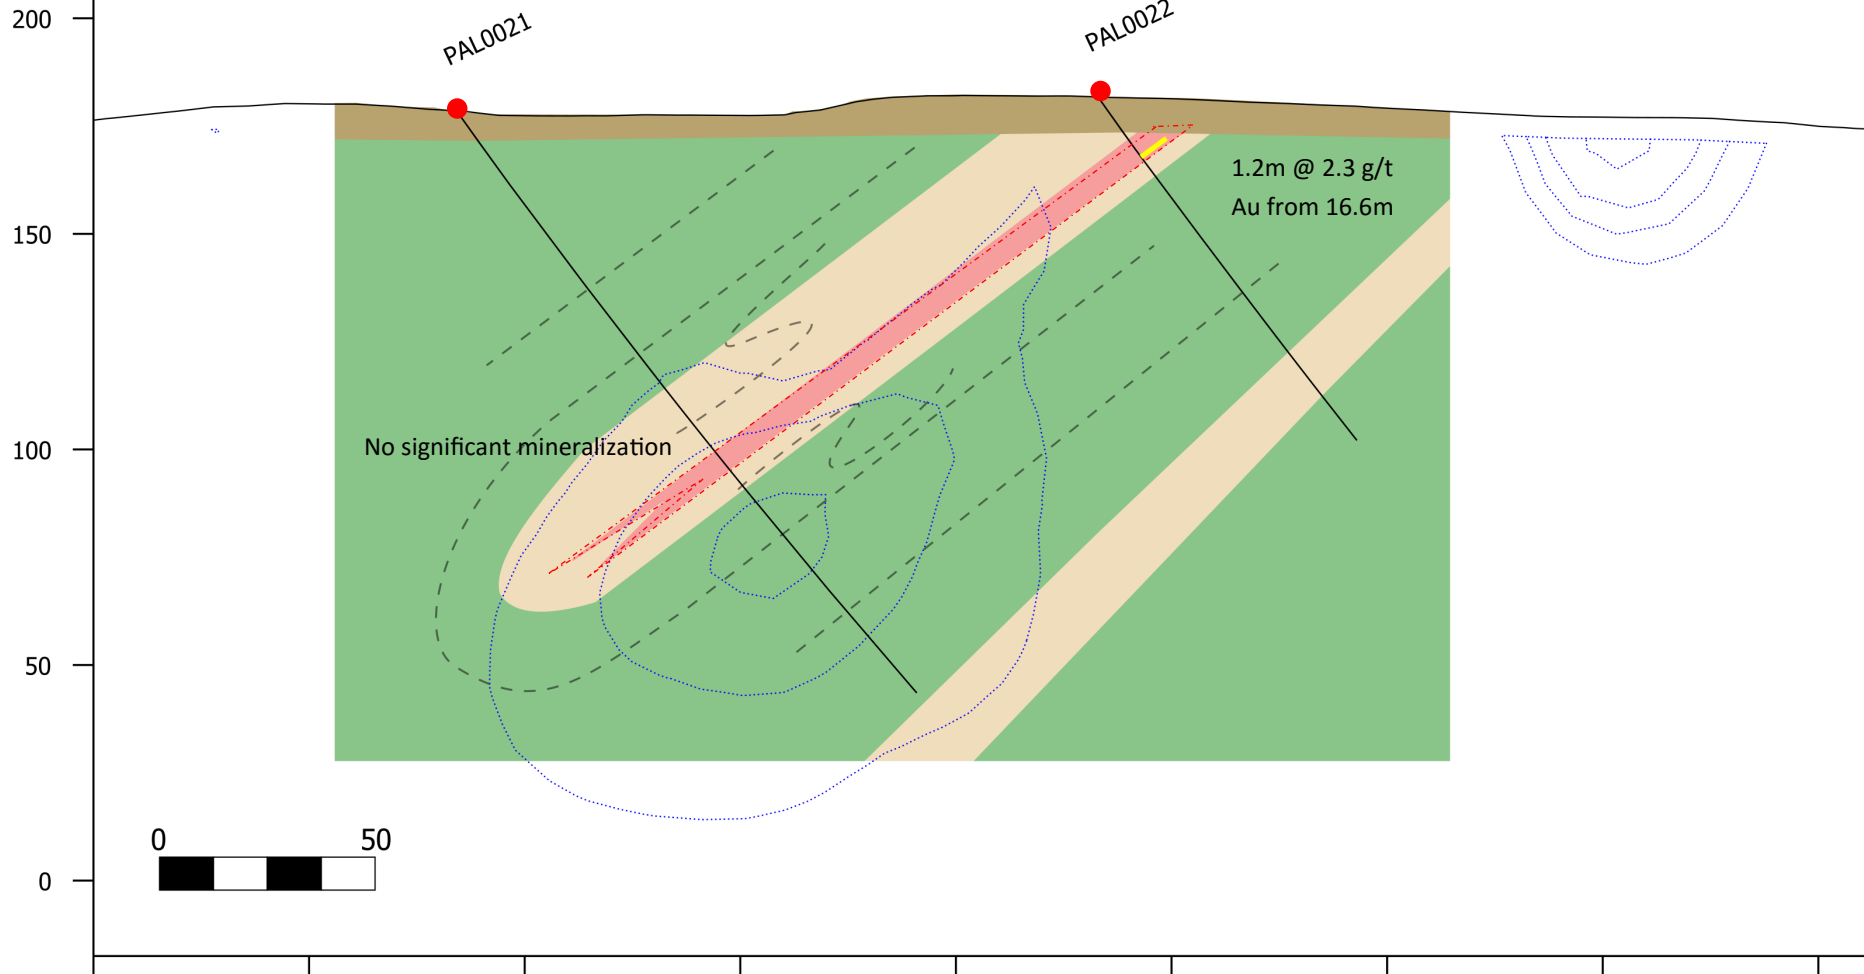

# Figure 6 Cross Section PAL0021 and PAL0022

**Legend**

- Albitized metasediment
- Amphibolite
- Magnesium silicate-pyrrhotite host rock

- Overburden
- Grey albitized metasediment

- Low apparent resistivity model
  - Mineralized altered zone
- Viewing direction to NEE (070)

**Assay results g/t Au**

- ≤ 0.5
  - ≤ 1
  - ≤ 3
  - < 5
  - < 189
- histograms capped at 10 g/t Au

**Collars**

- Reported here
- Reported previously
