Press release

### **Supporting Quotes for Auto Theft Awareness Month**

"Auto theft is down 25% from this time last year in Toronto, but we would like to see that number continue to rise. The Toronto Police Service encourages everyone to take precaution and utilize anti-theft devices to ensure they don't become a victim of auto theft."

- Constable Wendy Drummond, Toronto Police Services

"Auto thieves nowadays are becoming increasingly brazen in their theft techniques. All cars are targets regardless of the model or their age. Initiatives like Auto Theft Awareness Month will help the public understand that they can't be complacent when it comes to protecting their vehicle."

- Sergeant Zahir Shah, Peel Regional Police

"In many cases, thieves are organized and sophisticated so simply locking your doors isn't enough. Ontarians need to layer this with other prevention methods such as alarms, steering locks and just plain common sense."

- Staff Sergeant Peter Hodgson, Halton Regional Police Service

- 30 -
