# Explore the possibilities

## Trackpad navigation: it's how you scroll

Getting to all your apps on a BlackBerry Bold 9650 is easy. Just glide your finger over the optical trackpad, scroll through menus and icons, then press gently to select what you want.

## Talk and surf with simultaneous voice and data

When words can't describe it, just snap a picture and send it - even when you're already on the phone. Or browse the Web while you talk on the speakerphone or on a headset.<sup>5,8</sup> Now you can do it all at the same time.

## BBM message your friends with BlackBerry Messenger

Got something to say? BBM message it! Use BlackBerry Messenger to stay in touch with your friends who already use BlackBerry® smartphones. Chat, share files and keep the conversation going wherever, whenever.<sup>3</sup>

## Be worldly with 3G

Whether you're traveling across the street or across the country, the BlackBerry Bold 9650 is your constant companion, with the ability to work on 3G networks<sup>2</sup> around the globe.

## All media, all the time

Carry, watch and share your videos, pictures, files and more.<sup>7</sup> Sync your BlackBerry Bold 9650 to your Mac or PC with BlackBerry® Desktop Software<sup>8</sup> and transfer your music or media in a few easy clicks. And don't worry about running out of storage - your smartphone comes with a spacious 2GB microSD card. When your collection grows, just replace it with a larger microSD card to hold more of your favorite media files.<sup>4</sup>

## Now you're a real task master

You never focus on just one thing at a time. Neither does your BlackBerry Bold 9650. You can use all of your favorite apps at the same time - there's no need to close one to use another. Which means you can BBM message your friends, update your status on Facebook®, read incoming emails and more,<sup>3</sup> simultaneously.

## Wi-Fi it

Get more done in less time by using Wi-Fi to get fast download speeds and web browsing on your smartphone. Just find a Wi-Fi hotspot and access your BlackBerry services right there.<sup>4</sup>

## A communication experience unlike any other

Now you don't have to log in to read your emails, text messages, instant messages, Facebook updates or MySpace™ notifications. Read them all on your BlackBerry Bold 9650 as soon as they arrive. Connect up to 10 supported email accounts, including Gmail® and Yahoo!® Mail. You can even receive news feeds and updates from apps like Ticketmaster®. Enjoy a communication experience unlike any other with a BlackBerry smartphone.

## Get personal with it

Create a complete BlackBerry experience just for you. Choose intuitive apps designed just for BlackBerry smartphones from BlackBerry App World™, including games, entertainment, finance and more.
