

Legend

Holes with anomalies in saprolite/transition zone

- ◆ SPTRD-016
- ◆ SPTRD-017

Auger Phase

- Hole ID - Phase 1
- Hole ID - Phase 2

Topographic contour

- - - - - 2 meters spacing
- 5 meters spacing

Geology

- SLTs(1) - Sand-siltstones, pink to red
- SLTcb - Black Siltstone with high carbon and marked by alternating levels of silt and clay.
- Sc - Very foliated metamorphic rock composed mainly of biotite

Structures

- Axe Fold
- ▲ Inverse Fault
- ▲ Inverse Fault inferred
- Normal Fault
