FOR IMMEDIATE RELEASE

Monument Systems LLC Partners with VisualVault Corporation to Integrate Intelligent Document Management

Tucson, Arizona (October 22, 2012) – Monument Systems LLC has partnered with VisualVault Corporation to power Monument Systems *xpress*™ upcoming release, Smart Series™. The VisualVault™ platform was selected as the technology backbone for the integration of intelligent document management. This will create a valuable, cost-effective business solution that health plans increasingly demand in light of Healthcare Reform.

Monument Systems *xpress*™ health plan administration system continues to set the standard for rapid delivery and cost reduction in all plan models as compared to other solutions in the market. Smart Series incorporates a new generation approach to document management that empowers health plans and delegated organizations to create templates easily, target data from the templates into a SQL database repository, and create new ways of capturing information for managing chronic care patients. All while increasing Monument Systems delivery of real-time digital communication in an integrated managed care/care management environment.

Bill Bysinger, EVP of Monument Systems comments: "We are moving rapidly on our integration with VisualVault's solution to complete our vision of intelligent document management across the continuum of patient care which we believe will offer a higher quality when treating and monitoring patients". Van Potter, President and CEO of VisualVault Corporation added "We are pleased to partner with Monument Systems and believe the unique combination of the capabilities of our respective systems will not only provide a strong competitive advantage in the marketplace, but will make a difference in healthcare. Together with Monument, our ability to provide ever changing forms templates with adaptive data tables will enable the delivery of a stable platform that is both nimble and structured, all at the same time."

Monument Systems LLC:
Monument Systems LLC is a leading provider of Health Plan Administration Solutions and Care Management Software to the Health Plan, Delegated IPA, Medicare, Medicaid, and Managed Care markets. The company's flagship product, Monument Systems *xpress*™ has been providing highly efficient and cost effective solutions to the market since 1999. The combination of the *xpress* managed care capabilities, integrated with HealthTrio *connect*™ creates powerful clinical and administrative data integration.

VisualVault Corporation:
VisualVault Corporation, (Vancouver, BC and Scottsdale, Arizona) provides secure document and business process management software as a service (SaaS) and compliance cloud services. VisualVault™ is unique in its ability to meet the needs of a wide range of vertical markets including health care, securities regulation, manufacturing and government. The Company intends to expand and build upon its current tier-one customer base both within North America and internationally.
