

Table 4. Figure 2 Legend

LEGEND	
	Ir Welded rhyolitic ignimbrite (Scardons Volcanics) 5-10% 3mm qtz + 10% 2mm feldspar phenocrysts + flattened fiamme.
	xri Hydrothermal breccia. Rhyolite fragments dominant.
	xpm Hydrothermal breccia. Schist fragments dominant.
	xps Hydrothermal breccia. Psammite fragments dominant.
	Rlx Rhyolite flow/talus breccia
	Ri Rhyolite intrusive. Flow banded. 1-3% 2mm qtz + 5-10% 2mm feldspar phenocrysts.
	qc Comb quartz veins
	qb Buck quartz veins
	qp Pegmatitic quartz-muscovite veins
	Gm Leucocratic muscovite microgranite (Obriens Creek Supersuite).
	omp Leucocratic, porphyritic muscovite microgranite (Obriens Creek Supersuite).
	G Leucocratic muscovite granite (Obriens Creek Supersuite).
	Am Amphibolite
	Ps Psammite
	Pe Pelitic schist
	Pm Mixed pelitic + psammitic schist
