

APPENDIX A

Drilling Programme Schematic

Notes:

1. Red drillhole traces represent the drilling programme outlined in this news release.
2. Purple drillhole traces represent existing drillhole composite assays >5g/t Au.
3. White ellipse areas are high grade target zones within the global Inferred Mineral Resource reported for the KCD deposit (March 2009).
4. Open pit and underground mine designs depicted form the basis of Probable Mineral Reserves for the KCD deposit as estimated in the Optimised Feasibility Study (March 2009).
