

- LEGEND**
- Drill hole in existence
 - Drill hole program
 - Chancel
 - Trench
 - Topographic contours (10m)
 - Topographic contours (50m)
 - Road
 - Water course

- STRUCTURE**
- Fault. Structural lineament
 - Strike and dip veins

ALTERATION

Pyritization (pyrite/jarosite)

Strong	Moderate	Weak

Silicification
 Kaol +/- Ser +/- Py
 Qtz - Ser +/- Py
 Mag - Bt - K-feldspar

- Subparallel veining (preferential direction)
- Au-Ag Veins / Fractures system
- Stockwork (Qtz +/- oxides Fe)
- Cu-Mo-Au Stockworks

- Stockwork area (strong with Hen+Goeh)
- Hydrothermal Breccias
- Hydrothermal breccia structures
