### **Profile**

Michel K. Landry is a partner within Deloitte's Financial Advisory practice and acts as the national leader of the firm's Équation Nord initiative to provide companies with best-in-class advisory services for business development in Northern Quebec. In particular, he leads a team of industry specialists mandated to serve companies and organizations—whether domestic or international—that want to become project stakeholders in Northern Quebec. Mr. Landry is also the national Forestry and Paper industry leader.

Michel has over 27 years of experience in corporate finance, including M&A assistance, financing, profit-oriented financial analysis, cost accounting, project analysis and financial management, with a diverse clientele comprising many mining and forestry companies, and Aboriginal communities.

Since joining Deloitte, Mr. Landry has been sought after for his expertise in the natural resources sector, more specifically in corporate acquisitions and sales, strategic planning, and business combinations and turnarounds. He has also acted as an industry expert for a number of financial institutions and tribunals.

### **Michel K. Landry's expertise:**
