							TOTAL	4551.80	m			
							3163.40					

**Notes:**

1. True widths are estimated at 70 to 98% of the core interval.
2. Drill hole intercepts are calculated with a lower cut of 0.50 g/t Au and may contain lower grade interval of up to 5 metres in length.
3. Assays are reported uncut but high grade sub-intervals are highlighted.
