MEDIA INVITATION

Bombardier Aerospace is ready to deliver its newest regional jet and we would like you to join us.

The **CRJ1000 NextGen** regional jet is the largest, leanest and greenest member of the world's most successful family of regional jets.

Senior executives of our launch customers, Air Nostrum of Spain and Brit Air of France, will join Bombardier Aerospace leaders at the event and will be available for interviews and photo opportunities.

Date: Tuesday, December 14, 2010

Time: 11:00 a.m.

Place: Bombardier Aerospace,
13100 Henri-Fabre Blvd, Mirabel, QC J7N 3C6
A map is attached to assist you.

RSVP: Timothy Jacobs
(timothy.jacobs@aero.bombardier.com)

Introduced specifically to meet the needs of growing regional airlines for jets of up to 100 seats, the CRJ1000 NextGen aircraft is the optimized solution for medium-haul route applications.

Compared to older generation aircraft of similar size currently in operation, the CRJ1000 NextGen aircraft offers superior economics, substantially lower fuel consumption and up to 30% reduction in carbon dioxide emissions.

The CRJ1000 NextGen regional jet features the all-new "NextGen" interior that has been well received by airlines and passengers since its introduction on the CRJ700 NextGen and CRJ900 NextGen aircraft in 2007.
