

Triangle Marketing / 100

ANTI-MICROBIAL FILLER

Stopping Mould at the Source

Triangle Marketing Rx110 Inc. is a federally registered company with shareholders

A company that is entirely designated to the filler business.

- The industry was originally created as a sideline and use of tailings in the limestone business.
- NO jobs will be displaced in this industry takeover as the limestone industry will keep 97% of it's business.
- The product has been well received by over 100 plus anxious customers
- Because filler is Triangle Marketing/Rx 100 sole and only business, the emphasis on quality and performance is pinnacle to this companies success.
- Mass media arousal has people lining up for the new Rx 100 products.
- Marketing plan was already successful in bringing in four of the eleven global licensees
- Global pandemic is mould while the medical industry pumps 40% new growth in hospital floor space and beds for victims with lung infections and cancer from mould exposure while spending wildly on vaccines
- Current filler feeds mould, Rx 100 kills it on contact
- Rx 100 has global patent file plans and intentions on extending those files well into 30 years or more of protection to coincide with licensing objectives.
