A research exhibit about caregiving and Alzheimer's disease across Canada

This experiential exhibit features photographic portraits of family caregivers, audio recordings of stories of care and emblems and artifacts that speak of the caregiving experience.

Our work is a tribute to family caregivers and part of our effort to raise the profile of care and caregiving.

Ardra and Maura are researchers at the University of Toronto.

Thanks to Social Sciences and Humanities Research Council of Canada and all those who have generously supported this project.
