

Relative In Situ Metal Value (%) Huampar

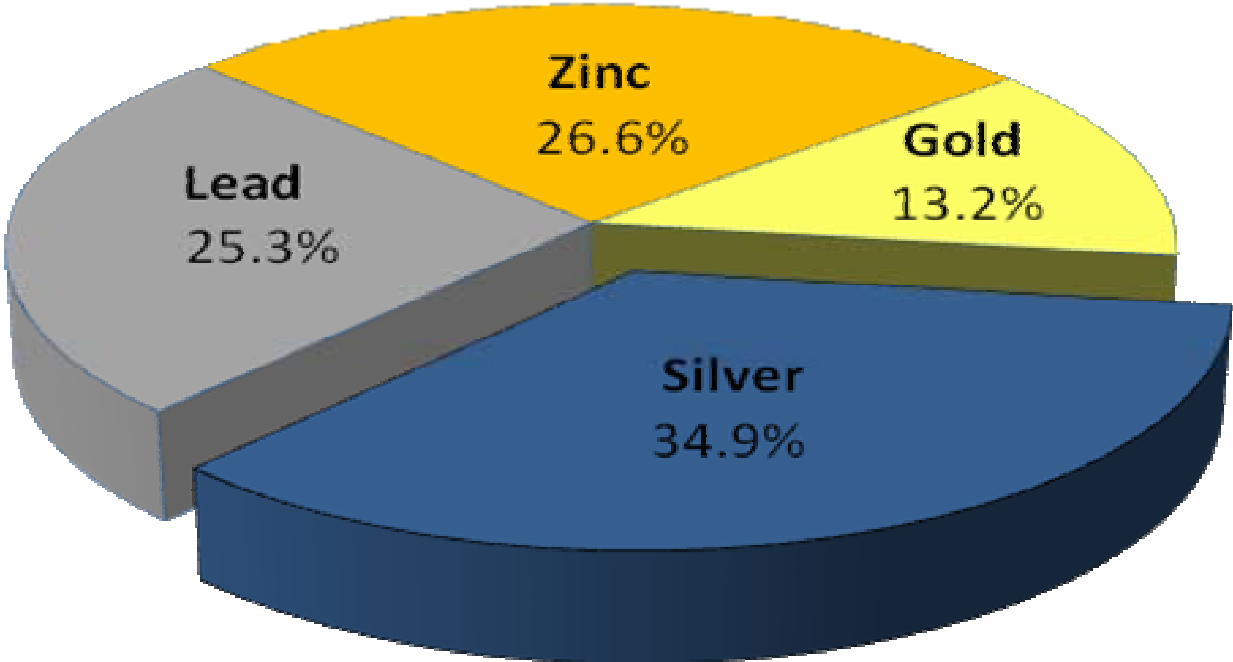

Figure 2: In situ metal values calculated for the historical Huampar Mine resource using a 3-year rolling average for silver (US\$14.90/oz), lead (US\$2,174/tonne), zinc (US\$2,079/tonne) and US\$900/oz gold. These values indicate that Huampar represents a significant potential silver resource at current metal prices.
