

Figure 5: Uranium mineralization styles at Roughrider Far East from drill holes released herein:  
(A) Massive mineralization, NQ core, MWNE-11-715.  
(B) Semi-massive mineralization, NQ core, MWNE-11-712A.  
(C) Hematite-associated mineralization, NQ core, MWNE-11-712A.  
(D) Foliation parallel mineralization, NQ core, MWNE-11-715.
