

Below are three photos indicating how to properly latch and lock the seat together. The first and second photos below show the incorrect position of the grey “Pull to Release” handle. The third photo features the correct position of the handle:

(1) In this photo, the handle is not latched or locked.

(2) In this photo, the handle is latched but NOT fully locked.

(3) In this photo, the handle is both latched and fully locked.
