

DENISON MINES CORP. WHEELER RIVER PROPERTY PHOENIX URANIUM DISCOVERY

Denison 60% Cameco 30% JCU 10%

- Only the highest grade intersections are shown where drill holes have more than one mineralized interval.
- Reported winter results using downhole probe equivalent grade.
- This map shows the latest results of drilling for the 2012 winter program in large font. Please refer to Denison's website for all prior results.
- Grade x Thickness contours based on results to hole WR-442 of the winter program.
- To accompany press release dated Feb. 28, 2012
